sites live

12

categories

Per-site audience

A River of News

news

A River of News is a chronological news aggregation website built around a simple organizing principle: the newest headline comes first.

Afterglow Screensavers

entertainment

Afterglow Screensavers is a free browser-based gallery that combines classic desktop screensaver nostalgia with contemporary generative animation and live public-data displays.

Airline Fleet Monitor

aviation

Airline Fleet Monitor is an aviation reference and telemetry website that connects airline fleet information with open ADS-B observations, civil aircraft registers, and other public aviation sources.

AirlineNation

aviation

AirlineNation is an aviation reference website that brings together operating and defunct airlines in a single searchable historical directory.

Auto Recall Watch

automotive

Auto Recall Watch is a vehicle research website that organizes safety recalls and owner complaint reports by make, model, and model year.

Boeing 747

aviation

Boeing-747.com is an independent enthusiast reference devoted to the Boeing 747's history, variants, specifications, operators, and continuing roles.

Calculator Hive

utility

Calculator Hive is a free online calculator directory covering financial, mathematical, health, scientific, construction, business, and everyday questions.

Clean on Paper

finance

Clean on Paper is an educational reference website about money laundering, organized around how illicit proceeds are disguised and how investigators recognize the process.

Commodity Origins

finance

Commodity Origins is a public-data reference website about where commodities are produced, traded, and priced.

Compute Atlas

technology

Compute Atlas is a reference website that describes large-scale computing through systems, physical sites, components, suppliers, and corporate relationships.

Cyber Case Library

technology

Cyber Case Library, branded as Cyberattack Case Library on its pages, is a structured reference collection of real cyber intrusions, prosecutions, and corporate breach disclosures.

Food Additive Index

nutrition

Food Additive Index is a structured reference website about food additives, their identities, and how regulators treat them.

Grid to Chip

technology

Grid to Chip is a reference catalog of the physical components and companies involved in building an AI data center.

How Scams Work

finance

How Scams Work is an educational fraud reference that explains schemes through their stages, psychology, documented cases, reported losses, and movement of proceeds.

Largest Ship in the World

marine

Largest Ship in the World is an independent maritime reference site that combines vessel rankings, historical profiles, fleet exploration, and a limited live AIS watchlist.

LNG Atlas

energy

LNG Atlas is a reference directory for the infrastructure of liquefied natural gas and gas transmission.

Machine Tricks

entertainment

Machine Tricks is a collection of small, personality-driven AI tools designed primarily for entertainment, creative prompts, and lightweight everyday tasks.

Market Manipulation

finance

Market Manipulation is an independent educational reference about conduct that distorts price formation and the public enforcement actions associated with financial-market wrongdoing.

News Markets

news

News Markets is a news discovery website that places clustered reporting alongside prediction-market prices.

Nuclear Chain

energy

Nuclear Chain is a reference and data-exploration website about nuclear reactors and the industrial chain that supports them.

PDF Toolbox

utility

PDF Toolbox is a browser-based document utility website built around processing files on the user's device rather than uploading documents to a remote conversion service.

Sanctioned Vessels

marine

Sanctioned Vessels is a maritime sanctions reference that gives each listed hull a permanent page keyed by IMO number.

Sanctions Evasion

finance

Sanctions Evasion is an educational reference website about how attempts to bypass restrictions are recognized and documented.

SimbaSystems

data

SimbaSystems is the public-facing hub for a network of topic-specific data websites and practical browser tools.

Supplement Label Index

nutrition

Supplement Label Index is a market-level analytics website about what United States dietary supplement labels declare.

Utility Hive

utility

Utility Hive is a broad directory of free browser tools for everyday work, planning, document handling, creative tasks, and technical utilities.

Web2News

news

Web2News is a dense, multi-column news aggregation website designed to put many publishers and topics on one screen.

Who Owns This Brand

finance

Who Owns This Brand operates on the reviewed website as Brandtree, a consumer-brand ownership reference built around source-linked corporate relationships.

World Extreme Weather Monitor

data

World Extreme Weather Monitor

World Leaders Daily

politics

World Leaders Daily is an independent public-interest website that brings together public diaries, calendars, and office publications associated with political leaders and institutions.

World Oil Monitor

energy

World Oil Monitor is an energy-market dashboard and reference website focused on oil prices, petroleum fundamentals, related fuels, and the wider industrial context of energy markets.

World Power Monitor

energy

World Power Monitor is an electricity data website that combines country-level generation and emissions statistics with live operator feeds where public data is available.

World Signals Monitor

data

World Signals Monitor, branded on the reviewed pages as World Signal Monitor, is a public-data discovery and analysis website focused on changes across countries and reporting economies.

World TLD Monitor

technology

World TLD Monitor is a domain-industry reference and analytics website centered on top-level domains, registry operators, official reporting, and the economics of owning domain names.
